**Cataloging and Classification** Jan 27 2020 The cataloging and classification field is changing rapidly. New concepts and models, such as linked data, identity management, the IFLA Library Reference Model, and the latest revision of Resource Description and Access (RDA), have the potential to change how libraries provide access to their collections. To prepare library and information science (LIS) students to be successful cataloging practitioners in this changing landscape, they need a solid understanding of fundamental cataloging concepts, standards, and practices: their history, where they stand currently, and possibilities for the future. The chapters in *Cataloging and Classification: Back to Basics* are meant to complement textbooks and lectures so students can go deeper into specific topics. New and well-seasoned library practitioners will also benefit from reading these chapters as a way to refresh or fill gaps in their knowledge of cataloging and classification. The chapters in this book were originally published as a special issue of the journal, *Cataloging & Classification Quarterly*.

**Advertising Basics!** Mar 30 2020 Advertising Basics! is a one-stop resource for anyone who wishes to understand and unravel the exciting world of advertising. Beginning from the basics, the book uses a simple commonsense approach to explain everything one wants to know about advertising and how the industry works on a daily basis. The book begins with a brief history which gives the reader an understanding of how advertising has evolved from the way it was practiced earlier in the teeming bazaars to its sophisticated and technologically advanced avatar today. The authors then discuss each aspect of the advertising industry in detail, giving pointers, suggestions and in-depth analysis of how things work in each department. Some of the highlights of this text are: - A holistic introduction which gives the reader a pan-industry perspective of advertising. - The nitty-gritties of copywriting for the main media-newspapers, magazines, radio, film, television and the Internet. - Detailed chapters on advertising agencies, client servicing and the creative aspects of advertising. - Pointers on how to conduct an advertising campaign. - Numerous advertisements which illustrate the theory and examples used in the book. - Tips on how to select an advertising agency and in what circumstances the agency should be changed. - A simple, approachable and anecdotal style of writing which the reader will enjoy.

*Back To Basics* Dec 20 2021 As a registered nurse for the last 28 years, my primary clinical expertise has been working in the pre-hospital environment as a flight nurse and a paramedic, as well as continuing to work in a variety of clinical areas which include the emergency department, pediatrics and endoscopy. My extensive clinical background has also given me the opportunity to work as a legal nurse consultant with one of the largest law firms in Arizona. As an EMS educator and program director of paramedic training programs for the last 20 years and most recently as the National Clinical Educator for one of the largest air medical transport companies, I truly enjoy teaching in a simple manner as to assure that students do have a strong basic understanding in making critical care

decisions and that they will be providing the highest quality of patient care beginning from the least to the most invasive management of care for the patients they are transporting. My goal as a professional and as an EMS educator has always been and will continue to encourage students to have the desire to learn and grow in their profession, as well as contribute to EMS in a way that inspires positive change. **Sibley's Birding Basics** Feb 28 2020 From the renowned author of the New York Times best seller *The Sibley Guide to Birds*, a comprehensive, beautifully illustrated guide to identifying birds in the field. Sibley's Birding Basics is an essential companion for birders of all skill and experience levels. With Sibley as your guide, learn how to interpret what the feathers, the anatomical structure, the sounds of a bird tell you. When you know the clues that show you why there's no such thing as, for example, "just a duck" birding will be more fun, and more meaningful. An essential addition to the Sibley shelf! *The Sibley Guide to Birds* and *The Sibley Guide to Bird Life and Behavior* are both universally acclaimed as the new standard source of species information. And now David Sibley, America's premier birder and best-known bird artist, turns his attention to the general characteristics that influence the appearance of all birds, unlocking the clues to their identity. In 200 beautifully rendered illustrations and 16 essays, this scientifically precise volume distills the essence of Sibley's own experience and skills, providing a solid introduction to "naming" the birds. *Birding Basics* reviews how one can get started as a birder—the equipment necessary, where and when to go birding, and perhaps most important, the essential things to look for when birds appear in the field—as well as the basic concepts of bird identification and the variations that can change the appearance of a bird over time or in different settings. Sibley also provides critical information on the

aspects of avian life that differ from species to species: feathers (color, arrangement, shape, molt), behavior and habitat, and sounds.
