Patient-Reported Outcomes in Endocrine Diseases, An Issue of Endocrinology and Metabolism Clinics of North America, E-Book Dec 28 2022 In this issue of Endocrinology and Metabolism Clinics, guest editor Eliza B. Geer brings her considerable expertise to the topic of Patient-Reported Outcomes in Endocrine Diseases. Provides in-depth reviews on the latest updates in Patient-Reported Outcomes in Endocrine Diseases, providing actionable insights for clinical practice. Presents the latest information on this timely, focused topic under the leadership of experienced editors in the field; Authors synthesize and distill the latest research and practice guidelines to create these timely topic-based reviews.

Endocrine and Neuropsychiatric Disorders, An Issue of Endocrinology and Metabolism Clinics, Aug 24 2022 This issue of Endocrinology

Clinics brings the reader up to date on the important advances in research in endocrinology topics covered include reproductive psychiatry. Guest edited by Eliza Geer, the topics covered include stress, sleep disorders, antipsychotic medications, eating disorders, insulin resistance, drug and alcohol addictions and more.

Innovations in the Management of Neuroendocrine Tumors, An Issue of Endocrinology and Metabolism Clinics of North America E-Book Dec 04 2020 This issue of Endocrinology and Metabolism Clinics, edited by Dr. Ashley Grossman, will focus on Innovations in the Management of Neuroendocrine Tumors. Topics include, but are not limited to, Molecular targeted therapy of NETs - State of the art; Surgical approaches to the management of liver metastases; Liquid biopsies for NETs - circulating tumour cells and DNA; Novel functional imaging of NETs; The problem of appendiceal carcinoids; Peptide radioreceptor therapy comes of age; Current chemotherapy use in NETs; The problem of grade 3 NETs; Molecular genetic studies of pancreatic neuroendocrine tumours reveal new therapeutic approaches; The new WHO classification; Gastrinomas - medical or surgical treatment; When and how to use somatostatin analogues; The NETest as the way forward; Lung and thymic carcinoids; Carcinoid heart disease; Gastric carcinoids; New treatments for the carcinoid syndrome; and The genesis of the NETs concept - From Oberdorfer to 2018.

Pediatric Endocrinology, An Issue of Endocrinology and Metabolism Clinics of North America, E-Book Aug 20 2019 This issue of Endocrinology and Metabolism Clinics, edited by Dr. Robert Rapaport, is devoted to Pediatric Endocrinology. Articles in this issue include: Thyroid Cancer in Pediatrics; Gender and Sex Assignment; CAH Prenatal Diagnosis; Diabetes; Polycystic Ovarian Disease; Newborn Screening for X-linked ALD; Growth in Patients w/ Skeletal Dysplasia; Thyroid Imaging in Infants; Bariatric Surgery in Youth; Pituitary Imaging in Pediatrics; and Cardiac and Metabolic Features of GH Deficiency.

Pituitary Disorders, An Issue of Endocrinology and Metabolism Clinics of North America, E-Book May 21 2022 This issue of Endocrinology and Metabolism Clinics, edited by Drs. Anat Ben-Shlomo and Maria Fleseriu, is devoted to Pituitary Disorders. Articles in this issue include: Pathogenesis of Pituitary Tumors; Prognostic Clinicopathological Classification of Pituitary Adenomas; Familial Isolated Pituitary Adenomas (FIPA) and Mutations in the Aryl Hydrocarbon Receptor Interacting Protein (AIP) Gene; Pitfalls of IGF1 and GH Assays;

Acromegaly: Pharmacotherapy; Hypothalamo-pituitary-adrenal Axis Testing; Pharmacotherapy of Cushing Disease: New Targets; Prolactinomas; Non-functioning Pituitary Tumors; Cabergoline Use for Pituitary Tumors and Valvular Disorders; Aggressive Atypical Pituitary Tumors and Carcinoma; Outcomes of Endoscopic Transsphenoidal Pituitary Surgery; Efficacy and Complications of Pituitary Irradiation; Hypopituitarism: GH and ACTH Deficiency; Hypophysitis; Hypopituitarism After Traumatic Brain Injury; Quality of Life in Pituitary Diseases; Pituitary and Bone Disease; Pituitary Tumor Management in Pregnancy; and Pituitary Apoplexy.

Hypoparathyroidism, An Issue of Endocrinology and Metabolism Clinics of North America, Ebook Sep 13 2021 This issue of Endocrinology and Metabolism Clinics, edited by Dr. Michael A. Levine, will focus on Hypoparathyroidism. Topics include, but are not limited to, Signs and symptoms of hypoparathyroidism, Embryology of the parathyroid glands, Physiology of parathyroid hormone, Epidemiology of hypoparathyroidism, Surgical hypoparathyroidism, Medical hypoparathyroidism, Genetic disorders of parathyroid development and function, Autoimmune hypoparathyroidism, Skeletal Manifestations of hypoparathyroidism, Renal manifestations of hypoparathyroidism, Quality of life and other targets of hypoparathyroidism, Pseudohypoparathyroidism, Conventional treatment of hypoparathyroidism, and New Directions in Treatment.

Pediatric Endocrinology, an Issue of Endocrinology and Metabolism Clinics Sep 25 2022 This issue of Endocrinology and Metabolism Clinics provides essential updates across the spectrum of pediatric endocrinology. Topics covered include Prevention of type 1 and type 2 diabetes mellitus; genetics of growth; diagnosis in prepubescent girls; Turner and Noonan Syndromes; thyroid function in Down Syndrome; chronic disease; effects of ADHD treatment on growth; Vitamin D and bone health; use of statins; and obesity prevention.

Updates on Osteoporosis, An Issue of Endocrinology and Metabolism Clinics of North America, E-Book Updates on Osteoporosis, An Issue of Endocrinology and Metabolism Clinics of North America, E-Book Jul 11 2021 In this issue of Endocrinology and Metabolism Clinics, Guest Editor Pauline Camacho brings her considerable expertise to the topic of Osteoporosis. Provides concise and comprehensive coverage of the issues physicians face every day. Presents the latest information on a timely, focused topic under the leadership of experienced editors in the

field.

Adrenal Cortical Neoplasia, An Issue of Endocrinology and Metabolism Clinics of North America, Apr 08 2021 This issue of *Endocrinology and Metabolism Clinics*, edited by Dr. Alice Levine, is devoted to Adrenal Disease. This issue will be broken down into 3 sections: Overview of Adrenal Cortical Development, Steroidogenesis, Comparative Anatomy and Molecular Pathophysiology; Benign Adrenal Tumors; and Adrenal Cortical Carcinoma. Articles in this issue include: Adrenal Cortical Zonal Development; Adrenal Steroidogenesis and Congenital Adrenal Hyperplasia; Animal Models of Adrenocortical Tumorigenesis; Genetics of Adrenal Cortical Tumors; Adrenal Incidentalomas; Aldosteronomas – Challenges in Diagnosis and Management; Mild Hypercortisolism Due to Adrenal Adenomas – Definitions and Therapeutic Options; Management of Adrenal Tumors in Pregnancy; Pathology of ACC; Diagnosis and Medical Management of ACC; and Surgical Management of ACC.

Thyroid: An Issue of Endocrinology and Metabolism Clinics Nov 22 2019 The thyroid is an endocrine gland, located at the neck. It secretes three hormones-thyroxine, triiodothyronine and calcitonin. The thyroid hormones influence the metabolic rate of the body and control protein synthesis. Any dysfunction in the production of these hormones or abnormality in the thyroid gland can lead to several diseases. Excessive or insufficient production of the thyroid hormone leads to hyperthyroidism and hypothyroidism respectively. The thyroid gland can also develop nodules which can be malignant or non-malignant. Malignant nodules may include medullary, follicular and papillary carcinomas. Thyroid research encapsulates a wide range of topics relative to the diagnosis, pharmacological and treatment methods, genetics of thyroid disorders and complications, etc. The physiological mechanisms of the action and regulation of the thyroid hormone are studied and understood owing to such research. This book is a compilation of chapters that discuss the most vital findings and emerging trends in thyroid research. The various studies that are constantly contributing towards advancing the understanding of the thyroid gland are examined in detail.

Lipidology, An Issue of Endocrinology and Metabolism Clinics of North America, E-Book Aug 12 2021 This issue of *Endocrinology and Metabolism Clinics* examines the timely topic of Lipidology. In addition to the New Recommendations - ACC/AHA Lipid Guidelines, the issue

also includes Familial Hypercholesterolemia; LDL Apheresis; Lipids in Pregnancy and Women; Diabetes and Lipidology; Diabetic Dyslipidemia; Fatty Liver Disease; Lipids and HIV Disease; Residual Risk; and Statins' effects on diabetes, cognition, and liver safety.

Insulin-Like Growth Factors in Health and Disease, An Issue of Endocrinology and Metabolism Clinics - E-Book Jan 17 2022 This issue of *Endocrinology Clinics*, authored by experts worldwide, provides essential updates about insulin-like growth factors (IGFs). The physiology is examined, including the latest in what we have learned from animal models as well as humans. The issue also covers IGFs and IGF system in the following: growth disorders; adipogenesis and obesity; muscle function and disease; bone; cancer; cardiac function and disease; normal and diseased kidney; peripheral nervous systems; gastrointestinal diseases; diabetes and metabolism; and IGF-1 central/degenerative diseases.

Endocrine Disorders During Pregnancy, An Issue of Endocrinology and Metabolism Clinics of North America, E-Book Oct 26 2022 This issue of *Endocrinology Clinics* covers essential updates in a range of common endocrine disorders that are of special concern during pregnancy, as well as endocrine problems that can arise due to pregnancy. A variety of thyroid, pituitary, adrenal, and hypertensive disorders are covered, as well as calcium and bone metabolism disorders during pregnancy and lactation. Diagnosis and treatment of gestational diabetes, and pregestational diabetes are addressed. Iodine disorders in pregnancy and lactation are covered. Hyperprolactinemia and infertility are also addressed. Special concerns of obesity in women with reproductive dysfunction are considered. An in-depth guide to achieving a successful pregnancy with PCOS is provided

Lipids, An Issue of Endocrinology and Metabolism Clinics of North America, Jan 05 2021 This issue of *Endocrinology and Metabolism Clinics*, devoted to Lipids, is edited by Dr. Donald A. Smith. Articles in this issue include: Advanced Lipoprotein Testing; Improving Cardiovascular Risk Assessment: Coronary calcium score and CT coronary imaging; Understanding HDL; Statin Strategies for Maximizing Public Health: benefits and harms; Cellular Cholesterol Regulation: SREBP and miRNA; Mediterranean Diet - the best diet for CV protection?; Pediatric Lipidology: An Earlier Approach; Newer LDL-lowering Therapies; and Statin Combination Therapies.

Pituitary Disorders, An Issue of Endocrinology and Metabolism Clinics

of North America Mar 19 2022 This issue of Endocrinology and Metabolism Clinics will cover Pituitary Disorders. Curated by Dr. Niki Karavitaki, this issue will explore topics in the field that are relevant for practicing clinicians. This issue is one of four selected each year by the series Consulting Editor, Adriana G. Ioachimescu. The volume will include articles on: Epidemiology of pituitary disease, Advances in the imaging of pituitary tumours, WHO 2017 classification of pituitary tumours, Cancer immunotherapy and pituitary function, Advances in the medical treatment of Cushing's disease, Nelson's syndrome, Update on genetics of pituitary tumours, Dopamine agonists for pituitary tumours: benefits and risks, Acromegaly: Update on management and long-term morbidities, Endoscopic surgery for pituitary tumours, Aggressive pituitary adenomas and carcinomas, Diabetes insipidus: an update, Management of hypothalamic obesity, and Pituitary Centers of Excellence.

Reproductive Consequences of Pediatric Disease, An Issue of Endocrinology and Metabolism Clinics of North America May 29 2020 This issue of Endocrinology and Metabolism Clinics of North America is devoted to Reproductive Endocrinology. Guest Editors Peter Lee, MD and Christopher P. Houk, MD have assembled a group of expert authors to review the following topics: Fertility Among Females and Males with Congenital Adrenal Hyperplasia (21-Hydroxylase Deficiency); Reproductive Issues for Turner Syndrome; Fertility and Reproduction Among Childhood Cancer Survivors; Fertility After Cryptorchidism; Male Obesity and Fertility; Fertility Issues among Transgender Individuals; Fertility Preservation in Pediatrics; Polycystic Ovary Syndrome (PCOS); Fertility Issues for Patients With Delayed Puberty (Constitutional Delay, Functional Delay, and Hypogonadotropism); Varicocele; Testis Development and Reproduction in Klinefelters Syndrome; and Fertility Issues Among Those With Disorders of Sex Development.

Patient-Reported Outcomes in Endocrine Diseases, an Issue of Endocrinology and Metabolism Clinics of North America: Volume 51-4 Dec 24 2019 In this issue of Endocrinology and Metabolism Clinics, guest editor Eliza B. Geer brings her considerable expertise to the topic of Patient-Reported Outcomes in Endocrine Diseases. Provides in-depth reviews on the latest updates in Patient-Reported Outcomes in Endocrine Diseases, providing actionable insights for clinical practice. Presents the latest information on this timely, focused topic under the

leadership of experienced editors in the field; Authors synthesize and distill the latest research and practice guidelines to create these timely topic-based reviews.

Obesity, An Issue of Endocrinology and Metabolism Clinics of North America, E-Book Jul 23 2022 This issue of Endocrinology and Metabolism Clinics, guest edited by Drs. Caroline M. Apovian and Nawfal Istfan, is devoted to Obesity. Articles in this comprehensive issue include: Guidelines for Obesity Management; Obesity is a Disease; Pharmacotherapy for Obesity; Bariatric Surgery Mechanisms; Diabetes Treatment in the Patient with Obesity; Adipose Tissue: Inflammation and the Endocrine Organ; Behavioral Treatment of the Patient with Obesity; The Role of Macronutrient Content in the Diet for Weight Loss and Weight Maintenance; Substrate Oxidation and Brown Adipose Tissue; Brown and Beige Adipose Tissue: Therapy for Obesity?; Ethnic Differences in Diabetes Lipids HTN and Obesity; Genetics of Bariatric Surgery Outcomes; Leptin and Hormones: Energy Homeostasis; Bariatric Surgery Clinical Outcomes; Medical Devices for Obesity; Adolescent Bariatric Surgery; Psychological Aspects of Obesity; and Nutrient Timing.

Bone Disorders, An Issue of Endocrinology and Metabolism Clinics of North America, E-Book Apr 27 2020 This issue of Endocrinology and Metabolism Clinics, guest edited by Dr. Albert Shieh of UCLA, is devoted to Bone Disorders. Articles in this outstanding issue include: Role of Osteocyte in Bone and Non-Bone Disease; Bone-Fat Interaction; Imaging Beyond DXA; Vitamin D in African-Americans; Pre-Menopausal Osteoporosis; Combined Pharmacologic Therapy in Osteoporosis; Drug-Related Adverse Events in Osteoporosis; Novel Therapies for Osteoporosis; Diabetes and Bone Disease; Bariatric Surgery and Bone Metabolism; Hyperparathyroidism and Bone Microarchitecture; FGF-23 Mediated Bone Disease; and Endothelin-Related Bone Disorder.

Thyroid Cancer and Other Thyroid Disorders, an Issue of Endocrinology and Metabolism Clinics of North America Feb 24 2020 Managing and treating patients with thyroid issues accounts for about 30% of an endocrinologist's practice. The issue will be divided into two parts: thyroid cancer and other major disorders. Articles will cover new information on TSH and radioiodine therapy to treat thyroid cancer, as well as best practices for managing hypothyroidism, Graves disease and thyroiditis.

Aging and Endocrinology, An Issue of Endocrinology and Metabolism

Clinics, Jun 22 2022 This issue of *Endocrinology Clinics* brings the reader up to date on the important advances in research surrounding the role of aging on the endocrine system. Guest edited by Anne Cappola, the topics covered include reproductive aging in women, thyroid disorders, testosterone administration, osteoporosis in older adults, hormonal therapeutics and more.

Biochemical and Imaging Diagnostics in Endocrinology, an Issue of Endocrinology and Metabolism Clinics of North America Apr 20 2022 This issue of *Endocrinology and Metabolism Clinics*, guest edited by Drs. Richard Auchus, Adina Turcu, Alan D. Waxman, and Barry D. Pressman, is devoted to *Biochemical and Imaging Diagnostics in Endocrinology*. Articles in this issue include *Mass spectrometry applicability in endocrine testing; Point-of-care endocrine testing; Thyroid, Bone; NET; Predictors of fertility; Thyroid ultrasound imaging and needle biopsy; Pituitary imaging; Adrenal imaging; Pancreatic imaging; Diagnosis and management of thyroid disorders; Neuroendocrine Tumors, and Parathyroid Imaging.*

Vitamin D, An Issue of Endocrinology and Metabolism Clinics of North America, E-Book May 09 2021 This issue covers essential topics in endocrinology and *Vitamin D*, providing the most up-to-date information. Subject matter covered includes the extra-skeletal effects, nutritional needs, *Vit D*. assays, Rickets, osteomalacia, immune properties of *Vit. D*, osteoporosis, *Vit. D* analogs and properties, renal disease, *Vit D* receptor, cancer, and diabetes.

HIV and Endocrine Disorders, An Issue of Endocrinology and Metabolism Clinics of North America, Mar 27 2020 This issue of *Endocrinology and Metabolism Clinics*, guest edited by Dr. Paul Hruz, is devoted to *HIV and Endocrine Disorders*. Articles in this issue include: *Dyslipidemia and cardiovascular risk in HIV infection; Changes in nutritional concerns in HIV/AIDS; HIV Lipodystrophy: Lessons learned about adipose tissue and metabolic disorders; Hypogonadism in the HIV infected male; Gonadal function and reproductive health in women with HIV; Osteopenia, osteoporosis, and fracture risk with HIV infection and treatment; HIV-associated calcium and vitamin D abnormalities; Alterations in pancreatic islet function in HIV; Insulin resistance, glucose intolerance, and diabetes in HIV; Thyroid abnormalities in HIV; HPA axis/adrenal pathology in HIV; and Endocrinopathies in HIV-infected children.*

Problem Solving in Endocrinology and Metabolism Sep 01 2020 Aims

to offer a comprehensive case load of patient disorders seen by the general practitioner and endocrinologist. An algorithm accompanies most cases. This work covers each of the major areas of endocrinology such as: thyroid, adrenal gland, pituitary, reproduction, calcium and bone, endocrine hypertension, water, electrolytes and glucose.

Endocrinology in Clinical Practice, Second Edition Oct 14 2021
Endocrinology is a complex specialty that spans a wide range of diseases, disorders, and conditions. The field is now moving toward an increasingly personalized approach to patient management, with a greater focus on mechanisms of disease and biomarkers. Written by internationally renowned specialists, the second edition of *Endocrinology in Clinical Practice* provides a cutting-edge, problem-orientated approach to the management of clinical problems in endocrinology. Highlights of the new edition include: An overview of neuroendocrine disease Strides made by the identification of aryl hydrocarbon receptor-interacting protein mutations in patients with familial isolated pituitary adenomas The diverse roles of IGF-I Changes in diagnostic imaging and the increasing use of positron emission tomography The rapidly increasing incidence of neuroendocrine tumors and their management Hereditary primary hyperparathyroidism and multiple endocrine neoplasia Mechanistic and genomic advances related to disorders of calcium regulation and infertility The endocrinology of aging Protocols for pituitary function testing With complete updates to existing chapters, the second edition also presents new research data, diagnostic techniques, treatment options, and safety concerns related to existing therapies. This edition offers current guidance and scientifically focused information relevant to a range of clinical problems, making it an essential reference for practicing endocrinologists and specialist clinicians.

Hormones and Cancer: Breast and Prostate, An Issue of Endocrinology and Metabolism Clinics of North America, E-Book Jul 31 2020 This issue of *Endocrinology Clinics* brings the reader up to date on the latest information about hormones and cancer of the breast and prostate. The first section focuses on the breast, and topics covered include the following. The role of sex steroids and their receptors in normal breast development; estrogen carcinogenesis in breast cancer; hormonal mechanisms underlying the relationship between obesity and breast cancer; postmenopausal hormone replacement therapy and the risk of breast cancer; aromatase inhibitors, anti-estrogen and SERMS in the

treatment of breast cancer; and androgens in breast cancer in men and women. The second section is devoted to the prostate, and topics covered include the following. Overview of prostate anatomy, histology, and pathology; the critical role of sex steroids in normal prostate development; estrogens and androgens in prostate cancer development and the rationale for hormonal chemopreventive therapies; weighing the clinical evidence regarding the timing and extent of androgen ablative therapy for prostate cancer treatment; new hormonal therapies for castration-resistant prostate cancer; and the management of the side effects of castration therapy.

Diabetes Mellitus: Associated Conditions, An Issue of Endocrinology and Metabolism Clinics of North America, Jun 10 2021 This issue of the *Endocrinology and Metabolism Clinics*, guest edited by Drs. Leonid Poretsky and Emilia Pauline Liao, will focus on *Diabetes Mellitus: Associated Conditions*. Articles in this issue include *Metabolic syndrome; The role of glucocorticoids and insulin resistance in adipose tissue function and lipid metabolism; Cardiovascular disease; The Relationships between Cardiovascular Disease and Diabetes: Focus on Pathogenesis; Interventions for coronary artery disease; Peripheral Arterial Disease; Hypertension; Sleep apnea; Osteoporosis; Vitamin D deficiency; Diabetes and cancer; Dementia; Depression; and Polycystic Ovary Syndrome*.

Insulin Therapy, An Issue of Endocrinology and Metabolism Clinics - E-Book Oct 02 2020 This issue of *Endocrinology Clinics* brings the reader up to date on the current standards and important advances in insulin therapy. The following clinical topics are discussed: types of insulins, including new insulins; goals of therapy; pathophysiology of, and insulin treatment in type 1 and type 2 diabetes mellitus; pumps and glucose sensors; alternative insulin delivery; patient and provider insulin resistance; inpatient insulin therapy; insulin therapy in pregnancy; and pediatric insulin therapy.

Endocrinology and Diabetes Mar 07 2021 *Endocrinology, and diabetes care in particular, is a dynamic field where clinicians must translate new evidence into clinical practice at a rapid pace. Designed in an engaging, case-based format, Endocrinology and Diabetes: A Problem Oriented Approach offers a wide range of thought-provoking case studies that reflect contemporary, challenging, hands-on clinical care. Further, by providing a list of specific clinical problems, this format offers the reader a more convenient and pointed way to solve precise*

clinical problems in a timely manner. Developed by a renowned, international group of experts, this comprehensive title covers the most common clinical problems in endocrinology and diabetes and should be of great interest to endocrinologists, diabetologists, internal medicine physicians, family physicians, fellows, and residents.

Thyroid Cancer and Other Thyroid Disorders, An Issue of Endocrinology and Metabolism Clinics of North America, Dec 16 2021 Managing and treating patients with thyroid issues accounts for about 30% of an endocrinologist's practice. The issue will be divided into two parts: thyroid cancer and other major disorders. Articles will cover new information on TSH and radioiodine therapy to treat thyroid cancer, as well as best practices for managing hypothyroidism, Graves disease and thyroiditis.

Pediatric Endocrinology, an Issue of Endocrinology and Metabolism Clinics of North America, Volume 49-4 Nov 15 2021 This issue of Endocrinology and Metabolism Clinics will cover Pediatric Endocrinology. Curated by Dr. Andrea Kelly, this issue will explore topics in the field that are relevant for practicing clinicians. This issue is one of four selected each year by the series Consulting Editor, Adriana G. Ioachimescu. The volume will include articles on: Endocrine Sequelae in Childhood Cancer Survivors, Bone Health in Childhood Chronic Disease, Advances in Bone Health Assessment, Inhaled Glucocorticoids and Endocrine Outcomes, Atypical DM (mitochondrial, transplant, CFRD, monogenic), Pediatric Thyroid Cancer (outcomes, genetics, therapeutics), New Technologies in Type 1 diabetes (bionic pancreas, insulin, mobile health), Precocious and Delayed Puberty-Genetic Underpinnings and treatments (various GnRH formulations, implant), Pediatric Type 2 diabetes, Adolescent health outcomes in relation to phthalates.

Neuroendocrine Control of Metabolism, An Issue of Endocrinology and Metabolism Clinics, Jun 29 2020 This issue of Endocrinology Clinics brings the reader up to date on the important advances in research surrounding the neuroendocrine control of metabolism. Guest edited by Christoph Buettner, the topics covered include leptin signaling, hypothalamic inflammation, hypoglycemia awareness, perinatal programming of metabolic disease, substrates, and more.

Pandemic of Diabetes and Prediabetes: Prevention and Control, An Issue of Endocrinology and Metabolism Clinics of North America Oct 22 2019 Provides in-depth, clinical reviews on diabetes and prediabetes

prevention and control, providing actionable insights for clinical practice. Presents the latest information on this timely, focused topic under the leadership of experienced editors in the field; Authors synthesize and distill the latest research and practice guidelines to create these timely topic-based reviews. In this issue of *Endocrinology and Metabolism Clinics*, guest editor K M Venkat Narayan brings considerable expertise to the topic of diabetes and prediabetes.

Type 1 Diabetes, An Issue of Endocrinology and Metabolism Clinics of North America, E-Book Feb 18 2022 This issue of *Endocrinology and Metabolism Clinics of North America* provides the endocrinologist with essential updates on treatment of type 1 diabetes, with an eye toward future trends and developments. The Guest Editors brought together a remarkable group of notable authors, such as Paul Robertson, President of the National Diabetes Association. Topics covered include epidemiology; economics; contemporary management; inpatient management; update on insulin pumps and continuous glucose monitoring systems; update on studies aimed at interdicting and preventing type 1 diabetes; advances in the prediction, natural history, and mechanisms leading to type 1 diabetes; complications; hypoglycemia in type 1 diabetes; new lessons from animal models; the role of the gut in the genesis of type 1 diabetes and other autoimmune diseases; and an update on transplantation for reversing type 1 diabetes.

Transgender Medicine, An Issue of Endocrinology and Metabolism Clinics of North America Feb 06 2021 This issue of *Endocrinology and Metabolism Clinics*, Guest Edited by Dr. Vin Tangpricha, will focus on Transgender Medicine. This issue is one of four issues selected per year by the series Consulting Editor, Adriana Ioachimescu. Topics include, but are not limited to, Epidemiology of Transgender, Etiology of Gender Expression and Identity, Hormone therapy in children and adolescents, Transfeminine Hormone Therapy, Transmasculine Hormone Therapy, Dermatologic Conditions in Transgender persons, Gender Affirming Surgery, Fertility Considerations in Transgender persons, Transgender Medicine in the Military, Transgender Medicine in the Elderly, Mental Health in Transgender Persons, Primary Care in Transgender Persons, Cancer Risk in Transgender Persons, Osteoporosis, HIV in Transgender Persons, and Education Needs of Providers of Transgender Populations.

Acute and Chronic Complications of Diabetes, An Issue of

Endocrinology and Metabolism Clinics, E-Book Nov 03 2020 This issue of Endocrinology Clinics brings the reader up to date on the important advances in research surrounding acute diabetic complications. Guest edited by Leonid Poretsky and Eliana Liao, the topics covered include retinopathy, neuropathy, gastrointestinal complications, diabetic foot, dental complications, dermatologic complications, and more.

Pediatric Endocrinology, an Issue of Endocrinology and Metabolism Clinics of North America Nov 27 2022 This issue of Endocrinology and Metabolism Clinics, edited by Dr. Robert Rapaport, is devoted to Pediatric Endocrinology. Articles in this issue include: Thyroid Cancer in Pediatrics; Gender and Sex Assignment; CAH Prenatal Diagnosis; Diabetes; Polycystic Ovarian Disease; Newborn Screening for X-linked ALD; Growth in Patients w/ Skeletal Dysplasia; Thyroid Imaging in Infants; Bariatric Surgery in Youth; Pituitary Imaging in Pediatrics; and Cardiac and Metabolic Features of GH Deficiency.

Osteoporosis, An Issue of Endocrinology and Metabolism Clinics - E-Book Jan 25 2020 This issue of Endocrinology and Metabolism Clinics provides a comprehensive review of osteoporosis written by the world's leading experts. Topics include new mechanistic insights into pathophysiology; bisphosphonates; combination therapy; atypical fractures; non-BP anti resorbers; anabolic therapies; calcium; the impact of Vitamin D on bones; extraskeletal effects of Vitamin D; glucocorticoid osteoporosis; relation to anorexia nervosa, coeliac disease, and diabetes; and male osteoporosis.

Crash Course Endocrinology: Updated Edition - E-Book Sep 20 2019 Crash Course - your effective every day study companion PLUS the perfect antidote for exam stress! Save time and be assured you have all the core information you need in one place to excel on your course and achieve exam success. A winning formula now for over 15 years, each series volume has been fine tuned and fully updated, with an improved layout tailored to make your life easier. Especially written by senior medical students or recent graduates - those who have just been in the exam situation - with all information thoroughly checked and quality assured by expert faculty advisers, the result are books which exactly meet your needs and you know you can trust. Each provides an integrated approach to the subject by linking together topics such as anatomy, development, histology, physiology and pharmacology. Diseases and complaints, clerking, clinical assessment and examination, common skills and further investigations are also

covered. Commencing with clear 'Learning Objectives', every chapter guides you succinctly through the topic, giving full coverage of the curriculum whilst avoiding unnecessary and often confusing detail. A fully revised self-assessment section matching the latest exam formats is also included. In this edition, Crash Course Endocrinology has been carefully revised to further reflect the requirements today's medical curriculum, including enhanced coverage of the essential area of diabetes. More than 130 illustrations present clinical, diagnostic and practical information in an easy-to-follow manner. Friendly and accessible approach to the subject makes learning especially easy. Written by students for students - authors who understand exam pressures. Contains 'Hints and Tips' boxes, and other useful aide-mémoires. Succinct coverage of the subject enables 'sharp focus' and efficient use of time during exam preparation. Contains a fully updated self-assessment section - ideal for honing exam skills and self-testing. Self-assessment section fully updated to reflect current exam requirements. Contains 'common exam pitfalls' as advised by faculty. Crash Courses also available electronically! Online self-assessment bank also available - content edited by Dan Horton-Szar! Now celebrating over 10 years of success - Crash Course has been specially devised to help you get through your exams with ease. Completely revised throughout, the new edition of Crash Course is perfectly tailored to meet your needs by providing everything you need to know in one place. Clearly presented in a tried and trusted, easy-to-use, format, each book in the series gives complete coverage of the subject in a no-nonsense, user-friendly fashion. Commencing with 'Learning Objectives', each chapter guides you succinctly through the topic, giving full coverage of the curriculum whilst avoiding unnecessary and often confusing detail. Each chapter is also supported by a full artwork programme, and features the ever popular 'Hints and Tips' boxes as well as other useful aide-mémoires. All volumes contain an up-to-date self-assessment section which allows you to test your knowledge and hone your exam skills. Authored by students or junior doctors - working under close faculty supervision - each volume has been prepared by someone who has recently been in the exam situation and so relates closely to your needs. So whether you need to get out of a fix or aim for distinction Crash Course is for you!!
